## Why Invest in the DeFi space through the Ethereum Green Legend Fund?

### Portfolio diversification

Returns are uncorrelated with both the traditional asset classes and the volatile cryptocurrency market.

### Exceptional returns

The Decentralized Finance (DeFi) space offers opportunities for unmatched yields in the global financial industry.

### Long-term investment strategy

The investment objective is to generate profits in both bull and bear markets while mitigating risk by applying a proprietary strategy.

### Team experience

Our team of experts has more than 50 years of combined experience in the blockchain, financial, and IT industries and is able to navigate the complex world of DeFi.

### Due diligence

The team is diligent in evaluating each project where liquidity is provided. Any potential risks are assessed through an internal audit.

### Robust security

The assets are kept in cold storage at all times with strict access rules maintaining the highest industry standards for security.

### Tax efficiency

Profits are distributed in digital currencies (Ethereum, and/or stablecoins). Depending on the entity and its native jurisdiction, cryptocurrency earnings might not be a taxable event until converted to fiat funds.

Carefully consider the risk factors, investment objectives, fees, expenses, and other information associated with investments in the Finexify fund, Green Legend Ethereum Fund (each, a "Fund," and together, the "Funds") before making an investment decision regarding the applicable Fund. Such risk factors, investment objectives, fees, expenses and other important information, can be found in the applicable Investment Fund Agreement, which can be obtained from Global xChange LTD (a.k.a. "Finexify"). The Funds have not been filed with, reviewed, or approved by the U.S. Securities and Exchange Commission (the "SEC") or any other regulatory agency or state securities commission in any country in the world. Any representation to the contrary is a criminal offense. Such documents may not contain all of the information necessary for a prospective investor to make a fully informed investment decision, and all investors are encouraged to read all available documents prior to making an investment decision.

Investments in the Funds are speculative investments that involve high degrees of risk, including a partial or total loss of invested funds. Finexify products are not suitable for any investor that cannot afford loss of the entire investment. The shares of each Product are intended to reflect the price of the digital asset(s) held by such Product (based on digital asset(s) per share), less such Product's expenses and other liabilities. Because each Product does not currently operate a redemption program, there can be no assurance that the value of such Product's shares will reflect the value of the assets held by such Product, less such Product's expenses and other liabilities, and the shares of such Product, if traded on any secondary market, may trade at a premium over, or a discount to, the value of the assets held by such Product, less such Product's expenses and other liabilities, and such Product may be unable to meet its investment objective.
